BE CE D

Experiment No. 1

Aim : To install wireless toolkit & run a hello world program

Running an inbuilt game project:

```
import javax.microedition.lcdui.*;
import javax.microedition.midlet.*;

public class HelloWorld extends MIDlet{
    private Form form;
    private Display display;

    public HelloWorld(){
        super();
    }

    public void startApp(){
        form = new Form("Hello World");
        String msg = "Hello World!!!!!!!";
        form.append(msg);
        display = Display.getDisplay(this);
        display.setCurrent(form);
    }

    public void pauseApp(){}

    public void destroyApp(boolean unconditional){
        notifyDestroyed();
    }
}
```

Conclusion: Hence, the program was run successfully
